

DRAYTON VALLEY BAND

Staff Photo

Drayton Valley's band playing at the Mobil camp. With bandmaster Karl Wahl, back to camera, to his left, from the front, is Al McKillop, Johnny Stang, Herb Burger, Ned Martel, and Jack Oswald. In front of him, Mrs Pat Jenkins, Young Ken Wahl, (hidden) Robert Krause, and Ed Galliger, to the right, A. Lloyd, owner row, Dave Ellery, Bill Wahl, Mrs Muriel Bales, John Byers and John Wahl.

Following is the makeup of the band. Leader, Karl Wahl. Cornets: Ed Galliger, Jack Oswald, Will Emerson, Don Fontana and John Wahl. Clarinets: John Byers, Dale Schultz, Al Nicols, Ned Martel, Ken Wahl, Alton Stang. Alto Sax: David Ego. Baritone: Jack Ego, Bill Wahl. Tenor: H. Schultz. Trombone: Pat Jenkins, Arnold Lloyd. Basses: Al McKillop, David Ellery. Drums: Herb Burger, Robert Krause. Cymbals: Muriel Bales.

NEW POST OFFICE

NEW POST OFFICE OPENED AT BRAZEAU.

A brand new postoffice has opened recently at the demise. It will be known as Brazeau Post-office. It will have daily mail service from and to Edmonton. Postmaster is Mr. Swirsky, and assisting him is Mr. Macdonald. The postoffice is in a building, the First Aid building, operated by Mannix Ltd. Lodgepole stepped out ahead of

SUNDAY SCHOOL PICNIC

Agileans gathered for their annual Sunday School picnic at the Nick Urchynsky farm two

GIRLS GYM CLUB

Staff Photo

A very fine crowd, many of them proud parents, turned out to watch the Girls Gym Club, Junior and Senior groups of the Koop Pk. classes held their final program for this season in Frank Maddock High School auditorium.

Mrs Leisenberg has done a wonderful job with the girls and the performance they put on was really very worthwhile. Following the performance Mayor A. Melers made a presentation of flowers to Mrs Leisenberg on behalf of the parents.

Here a group of the Senior girls are seen doing backbends, a little exercise that not many of us would care to attempt.

on the horse.

Recently opened across the fine new restaurant, Gloria's Coffee Shop in the brand new and very attractively built Canadian Coachways bus depot. This building is a real asset to the town, not only in the way of services for freight and bus passengers, but also so far as a very fine looking place of business on a formerly unsightly corner is concerned. As soon as parking is completed for the bus entrance at the side of the depot the bus depot will have an official opening at which time more will be said about the fine services.

Gloria's Coffee Shop had their semi-official opening last Monday, giving away free coffee and doughnuts before noon. When the bus depot has its official opening more will be said of the fine restaurant in the bus depot also.

The new bowling alley is coming along in good shape and will be ready when the bowling season opens. The office building, which will be the new office for Buchholz Construction, is almost ready for occupancy. Other changes that have recently taken place is that the Koehler Plumbing has moved into the office under the Drayton Valley Bakery, United Electric have moved into their own building, and Tom Johnson has taken over the former bus depot building.

THE Editor's Viewpoint

The recent plebiscite that was held, which authorized the buying by the Town of Drayton Valley of the 32 acres of land for recreational purposes at the western edge of town should be of value in more than one way. Not only will it provide an excellent recreation place, complete with some picnic grounds, and provision for many types of outdoor sport and recreation, but it will undoubtedly also necessitate the building of sidewalks on either one side of the other 60th Avenue to reach the grounds.

A sidewalk west to the highway has long been needed. There is not necessarily a lot of foot traffic from that area, but there is a certain amount of it, particularly during school days and it has so far been quite providential that no one has been injured walking down the street coming into town.

Because of soil and terrain conditions the street itself is worse than any other within the limits of the townsite, and in order to improve it materially a major street building program, a "white" county project, would be necessary. This will probably be undertaken by the town, perhaps with the aid of a provincial grant at some time in the future, but for the present time the street constitutes a major pedestrian

traffic hazard. Unless and until sidewalks are put in west to the highway there is no place to walk but right down the middle of the street.

When the recreational ground is put into operation there will be many children going back and forth to the grounds and the foot traffic will be increased greatly, with subsequent danger of accidents if a sidewalk is not provided for pedestrian traffic.

The Town of Drayton Valley has been faced with an unexpected and rather embarrassing situation in the shortage of water recently. Apparently water table levels are falling rapidly in this whole area. Perhaps the huge water injection program carried on by the oil companies has had something to do with it, perhaps it comes from other causes. It certainly cannot be from lack for we have had above average rainfall each year for the past several years, until this year, and may yet turn up with an average or above average rainfall for this summer, even though it is late in getting around.

Present plans under consideration by the Town call for the drilling of another well, which will probably be located on the north side of town, with about half a mile of pipe line necessary to bring the water to the reservoir.

Some have advocated the bringing in of water from the Saskatchewan River, but this would be a very costly process, both in pumping and piping it to its destination and purifying after it is brought in. This process may be necessary in the future, but for the meantime everyone is asked to cooperate in using no more water than is absolutely necessary, and particularly in watering lawns and gardens in making sure that the watering is done at time when it will be most effective. These times have been designated by the Town and property owners have been advised of the best and most effective time to do watering.

A little old lady entered a department store. Instantly a hand began to play in her skirt was pinned on her dress, a \$100 bill put in her hand. She found herself being photographed from all sides and TV cameras beamed down on her.

"You're our one-million customer," the master of ceremonies for the event told her, smiling broadly. "And now can you tell us what you came here for today?" "Yes," said the little old lady, "I'm on my way to the complaint department."

A Texas rancher that a man dead and telegraphed a Houston lawyer, offering a \$10,000 fee to represent him. "Leaving for your town at once," came the reply. "Bringing their representative."

RCMP CHARGE TWO LAND SALES

Charged by local R.C.M.P. officers with selling liquor to minors two men were convicted in court recently and were sentenced to three months in Fort Saskatchewan jail without option of fine.

The charge against the two resulted from an investigation by the officers into a fight between minors in which one boy was left unconscious by the side of the road, where he was found and taken to hospital, where he remained unconscious for several hours. The boys involved in the fight ranged in ages from 15 to 18 years. Testimony showed they had been supplied with four

28 oz. bottles of wine and four cases of beer. None of the boys involved were attending school. The minors involved were also charged with obtaining liquor while under age and were given fines of from \$10. to \$30. One youth was to remain in custody until he reaches the age of 16.

In court also a driver with a suspended license was fined and given ten days in jail for driving while his license was under suspension. Another driver whose license was suspended was fined \$100. for driving a vehicle. Another was fined for making a false statement to the Unemployment Insurance Commission.

GUN CLUB HOLDS SHOOT

On Monday, June 19th at the Elks Community Hall the B.C. P.O. Elks Gun and Rifle Club held their final shoot of the season for the juvenile shooters who were competing for trophies sponsored by various business firms. Winners of the trophies were:

GROUP "A"

Thompson's Sporting Goods - First - Tom Cameron.

Alberta Lumber Weld, Ltd. - Second - John Hendrix.

Scots Tire Ltd. - Third - Barb. McKennie.

GROUP "B"

Plymouth Oil Co. - First - Evan Davis.

Oil Equipment Ltd. - Second - Brian Hendrix - Dibble Engineering Ltd. - Third - Ed Nutter.

GROUP "C"

Brown Water Well Drilling Co., First - Loren Regnier.

National Tank Co. Ltd. - Second - Ken Larson.

Gould Ltd. - Third - Lorne Rink.

The Gun Club executive of the B.C.P.O. Elks wish to thank all of firms for their splendid support in sponsoring the trophies in each class. Close runnerup for trophies were: Stan Luchak, Harley Vig, Ken Durham, Bob Cameron and Terry Sharley.

Regular Monday night shoots have been terminated until September 11th.

TRACK RECORD

Staff Photo

Twelve year old Delphine Johnson, daughter of Mr. and Mrs. Andrew Johnson, who live on a farm south of Drayton Valley, made an outstanding mark in track at the Home and School sponsored Track Meet held at the Elementary School last Friday.

Delphine made the 85 yard dash in the astounding time of 7.1 seconds, to far outclass her nearest rival and to establish a record for Drayton Valley schools which may stand for a long time. It is from material such as this that national and Olympic championships are made. Doesn't Delphine look the picture of perfect health?

SERVICE RIG BURNS

A Kimer Well Service rig blew up on a site one mile north of the Texaco gas plant, at Cynthis last Friday and was completely demolished by flames. Cause of the fire has not yet been determined, according to owner Mel Baxter, Operator "Bish" Taylor was quite badly burned from the blast on up in the fire and was rushed to hospital in Edmonton when it was found that his condition was not quite as bad as at first thought, and reports indicate that he is making a very satisfactory recovery.

PLANT AT BUCK LAKE

MacCalden Construction has the contract on the building and concrete work for a million and half dollar gas absorption plant in the Buck Lake area. General contractors on the plant are Black, Sivells and Bryson. The plant will be operated by Canadian Delphi.

The final meeting of the season for the W.L. Girl's Club was held at the Bayfield Cemetery. For Social Services the girls had a cemetery clean-up. Roll call was "Famous last words".

After the hard work the girls enjoyed a winner roast.

These girls will attend the Girl's Club Conference in Oid the week of July 10 - 16th. They are Darlene Anne Ocar, Jett Jackson and Valerie Hinchinson.

The girls are allowed to send six pieces of handicraft to the Girl's Conference and 3 cook books. They have been working very hard to prepare these items.

W.L. MEETING

The final meeting of the season for the Drayton Valley W.L. was held at the home of Mrs. Roy Burrows on Monday June 26, with twelve members present. A guest was Mrs. Carl Wahl.

Mrs. W. Krause gave a report on the Provincial Conference. She brought back several useful suggestions for the girls club.

Some of the ladies volunteered to sell wafers at the School Track Meet.

It was decided to have a Christmas Bazaar in the School Hall during November.

Two dollars was voted for the Athletic Association for equipment for the girls ball team. Mrs. Carl reported that the Bank opening was a financial success for the W.L. They served coffee and doughnuts to all the visitors.

Mrs. McWhirter brought a quilt which was bought from Mrs. Thorvaldson.

A letter was read from Mrs. Deby holding in Ireland.

Mrs. Burrows served a delicious lunch of English pastries.

W.L. CONSTITUENCY CONFERENCE.

Six women from the Drayton Valley branch of the Women's Institute attended the Stony Plain W.L. Constituency Conference at Wainwright on June 26. They were Mrs. Dorothy Mrs. Jack Frank, Mrs. Wainwright, Mrs. L. Oscar, Mrs. P. Chelphase and Mrs. C. Dion.

Some 100 women from 11 branches attended the conference. Represented was Spruce Grove, Wainwright, Stony Plain, Camrose, Wainwright, Oasway, Mayersburg, Duffield, Darwell, Calahoo and Drayton Valley. Thomas

hawk did not send a delegate. Mrs. P. Millig of Oasway, Constituency Conference president Mrs. Thomas, W.L. District Director for District 5 represented the A.W.L. and they were three ladies from the department of Extension to judge handicraft.

Wainwright won the handicraft cup with 34 points. Other handicrafts rated as follows: Wainwright 31, Camrose 29, Drayton Valley 28, Duffield 27, Darwell 22, Stony Plain 21 and Mayersburg 4.

Guest speaker was Mrs. C. Wood M.L.A. She spoke on the work of the C.A.C. Her subject was meat inspection. She stated that last year 30,000 dead animals in Ontario were sent to consumers. Some of these animals died on their way to market, others drowned in the flood etc. In Alberta all cities have Government meat inspection but many towns do not inspect meat.

The Wainwright W.L. were hosts. They served a delicious luncheon at noon and a delightful tea at 5 p.m.

A new Constituency Conference was selected. She is Mrs. F.T. Anderson of Langford Park a member of the Wainwright Branch. Five Constituency Chairmen of surrounding communities were also elected. They are Citizenship Mrs. W. Fraser, Duffield; Agriculture, Mrs. Henry Norris-Calahoo (Cont. on page 6, Col. 2)

GREEN ACRES

By DICK WOODMAN

MILK AND DAIRY CALVES

Four weeks is long enough to feed milk on dairy calves according to results of experiments recently at the Research Station, Lethbridge. At the end of the twenty-eight day period, the milk can be stopped abruptly without affecting future growth. Holstein heifer calves were used in the tests.

Dr. R.D. Clark of the Animal Section reports that if calves are healthy and can be kept in clean surroundings they can be raised successfully on six to eight pounds of whole milk per day until they are four weeks of age. They must, however, be given a calf starter and good quality grass or legume hay. The starter contained 21 per cent plant protein and was fed in pellet form. Alfalfa hay was available to the calves at all times.

At the end of the 28 days, the milk supply was stopped, but the alfalfa and calf starter feeding was continued until the calves were sixteen weeks. At that age they were given a fourteen per cent concentrate with the good quality alfalfa hay. Over the past five years, 94 calves up to the age of twelve months have been raised in this way. All were raised successfully.

Occasionally, however, a calf may need a little individual attention. It may be that a calf is not eating around one pound of concentrate when weaned it may look rather rough in the chest. Don't feed any longer on milk, he suggests. Just see that it is hand fed for two or three days. In a few days it will have become accustomed to the dry feed.

The calves started eating at a around two weeks of age and by the end of the four-week period they had consumed an average of ten pounds of concentrate and five to six pounds of alfalfa hay. At the end of the sixteen weeks they had each eaten three hundred pounds of water and one hundred and seventy pounds of hay. Average weight of the calves at sixteen weeks of age was two hundred and sixty pounds and twelve months of age it was seven hundred and ten pounds.

The original criterion on amount of milk to feed daily was ten per cent of the weight of the calf. It was found, however, that the calves did just as well when a unit of six to eight pounds of milk daily was used and the weight factor disregarded. For farm use this is much more convenient. It is important says Dr. Clark, to keep clean, fresh water before the calves at all times.

COOKING MAGIC

Home Service Director
Home Service Department of Northwestern Utilities, Limited.

For a meal ending to any meal nothing can take the place of a pretty pie. We've picked out some of our favorite recipes for you to try.

CARAMEL CRUNCH APPLE PIE

1 unshaped 9" pie shell
8 caramels
2 tbs. water
1/4 cup butter or margarine
1 tbs. sugar
7 cups corned, packed, thinly sliced apples
1 tbs. lemon juice
1/2 cup light cream
1/2 cup granulated sugar
3/4 cup graham-cracker crumbs
1/4 cup all-purpose flour
1/4 cup, salt
1/2 cup broken pecans
1/2 cup, cinnamon

Start heating gas oven to 350°F. In saucepan, heat together caramels, water, and butter just until melted, stirring constantly. Meanwhile, sprinkle combined sugar (1 tbs.) and apples over bottom of pie shell; drizzle cream over top. Stir together 1/2 cup sugar, cracker crumbs, 1/4 cup flour, salt, pecans, and cinnamon; sprinkle over apples. Stir caramel sauce; drizzle over pecan mixture. Bake about 1 hour, or until crust is brown and apples are fork-tender. Best served slightly warm.

CITRUS SUNSHINE CHIPFON PIE

3 tbs. unflavored gelatin
1/3 cup cold water
1/3 cup lemon and orange juice (equal parts)
Dash of salt
3 egg yolks
1/3 cup - grated lemon rind
1/3 cup - grated orange rind
1/4 cup sugar

3 stiff-beaten egg whites
1 1/2-inch baked pie shell
3/4 cup heavy cream
1/3 cup, grated orange rind.

Soften gelatin in water. Combine 1/3 cup sugar and fruit juices. Add salt to egg yolks and beat until. Add fruit juice mixtures; beat well. Cook in double boiler until mixture coats

a spoon. Remove from flame; add softened gelatin and stir until dissolved. Add grated rinds. Chill until partially set. Slowly beat 1/4 cup sugar into egg whites. Fold into custard and pour into pastry shell. Chill until set. Whip cream; spread over top; sprinkle with orange rind. Makes one 8-inch pie.
Note: You may use fresh orange sections which have been glazed in a sugar solution.

CHOCOLATE COCONUT BAY-ARBAN PIE

2 squares unweetened chocolate
2 tbs. butter or margarine
2 tbs. hot milk or water
2/3 cup sifted confectioners' sugar
1 1/2 cups snipped shredded coconut
1 envelope unflavored gelatin
1/4 cup granulated sugar
3 egg yolks
1 1/4 cups milk
3 egg whites
1/4 cup, salt
1/4 cup granulated sugar
1 cup heavy cream, whipped
1 tsp. vanilla extract
1 cup shredded coconut
1 square unweetened chocolate, shaved

Grease an 8-inch pie plate. In double boiler, melt 2 squares chocolate and butter; stir to blend. Combine hot milk, 2/3 cup sugar; stir into chocolate mixture. Add 1 1/2 cups coconut mix well. Press to bottom, sides of pie plate. Refrigerate in gas refrigerator. Combine gelatin with 1/4 cup sugar. In double boiler pot, beat yolks; stir in gelatine mixture and milk. Cook over heat, not boiling water, stirring until custard coats spoon. Refrigerate, stirring occasionally, until custard mounds when dropped from spoon; then beat just until smooth. Beat egg whites with salt till quite stiff; gradually add 1/4 cup sugar, beating until stiff; fold in custard mixture, then whipped cream, vanilla, and 1/3 cup coconut. Pour into crust, reserving about 1/3 mixture. Refrigerate pie and reserve filling until almost set; then heap remaining filling on center top of pie; refrigerate until serving time. About 15 minutes before serving, remove pie from refrigerator and let stand at room temperature. Gratin top with combined 1/2 cup coconut and 1/3 grated chocolate.

W.L. MEETING
(Cont. from page 4, Col. 3)
hoo: Social Service, Mrs. L. Ocar, Darwell; Handicraft Mrs. A. Ziegler, Darwell and Health. Mrs. H. Brown of Darwell.

Reported by Mrs. Ines Ocar.

"Little Junior, who hadn't spoken a word in all of his six years, finally burst at breakfast: 'Mom, the toast is burnt.' His maternal mother shrieked: 'You haven't spoken to us before everything's burnt.'"

"Well," replied Junior, "Up to now everything's been O.K."

Looking at Recreation

By: Michael Gueley,
Recreation Director

TRACK AND FIELD DAY OUT- STANDING

Last Friday afternoon, June 26th, I had the pleasure and the honor of officiating at the Drayton Valley Elementary School Track and Field events. As usual, the Field Day, held exclusively for the children of the local school, was an outstanding success in every aspect. The quantity and the quality of the competition taking part in the proceedings were, I would say, well above average for such an inter-annual event. The spirit of sportsmanship and good will reigned supreme throughout the afternoon.

Organized and directed by Mr. John Gray, the program was run off with clockwork smoothness and every event of the meet was right on schedule. With such a number of competitors and variety of events, such continuity was one truly outstanding feature of the entire meet. The track judge and all other field officials were members of the D.V. Home and School Association. The Chief Field Official was Mr. J.C. Wiuff and Mr. Allen Wright handled the duties of Chief Field Official as well. All officials served on a volunteer basis and one and all are to be commended on a job extremely well done. The teaching staff deserve a mountain of credit for the preparation training and coaching of the youngsters and when all is said and done a special bouquet should go to Mr. and Mrs. Gray for the organization and the presentation of such a noteworthy meet.

The events were well attended by the student body, the entire school staff and many parents of competitors and students. Everyone seemed quite satisfied that Friday's performance was the finest in this particular sphere of athletics that has been witnessed to date in Drayton Valley. Since my efforts were almost solely concentrated on track work, I can speak with little or no authority on the other individual field activities, however, from all reports and from some of the records set it would seem that the high and broad jumpers had quite a day for themselves. In high jumping Linda Urchaydyn set a new record of 5' 9" for Grade 5. Girls competition in the 8' 3" wrote her name in the Grade 5 book; Peter Malone and Bobby Johnson tied at 3' 9" for a new mark for the Grade 5 Boys. Romy Schmitt equaled this mark for a Grade 4 record, while Elgin Henselborth won high in the air to beat the old record by 6" with a 4' 9" hop in Grade 5 Boys competition. With the broad jumpers, Joy Menow bettered the old Grade 5 Girl's re-

cord by one whole foot with a 5' 9" leap. Linda McKelvie set a new Grade 6 record at 13' 4", however, the fall short, her Grade 5 record she set last year when she hopped to the ones of 13' 8", a record that will stand for a while, no doubt. Among the boys Bobby Johnson set a new Grade 5 mark at 10' 1/2" while in Grade 5 competition Jim Argue was flying for 15' 3/4" to put his name in the books.

The electrifying feature of the track meet was Delphine Johnson's 85 yard dash to a record time of 7.11 seconds. The eleven year old Delphine who is a Grade 6 student turned an amazing speed to reach the wire ahead of some real threatening competition in her class. In the Grade 5 boys event at the same time, the young Allan Martson matched the finish line at 86 for another record. The other two track records were set by eight-year old Ronnie Benson of Grade 5 who ran 40 yards in 8.6 and Igor Henselborth Grade 5, who made the 85 yard dash in 12.3. Two new records were set in relay racing. Both were in Grade 6 and at 86 yards. The girl's record for the four way relay was 61.8 while the boys made it in 80.0 flat.

All in all the meet was a fine and affectionate competition as you could care to tell. Some of us in the crowd mentioned the possibility of an Olympic Track and Field star from Drayton Valley, which certainly sounds good, and in all probability not as far fetched as you would first be led to believe. It is from such track meets and such field days at this that Olympic and international champions are born. So hat off to Mr. and Mrs. Gray, the teachers and the student body of the Elementary School on the presentation of an excellent sport's day.

LEGION CANTONMENT

Speaking of sports days, we have another big one (or I should say two) just around the corner. The Drayton Valley Royal Canadian Legion has set Friday and Saturday July 26th and 27th aside for their annual Intermediate Baseball Tournament. The plans are to have a minimum of eight teams playing off over the forty-eight hour period with six teams and runners going to the winners and winners going as well as the third and fourth place teams. There will be no minor baseball or softball played under the auspices of this particular summer meet, however, other added attractions are planned each day and each evening. Some plans have been laid for a horseshoe

tournament on Saturday of that week, while a small midway or miniature circus will likely be in operation on both days. A dance will be held on Friday evening in the local Legion Hall, while plans are on close out the two-day affair with a wrestling show at the Recreation Center on Saturday evening May 28th. This show would feature some of the top-most men presently appearing in Edmonton and Calgary plus a win-win match with lady wrestlers doing the work.

So it looks as though our Legion members have some thrills stacked away for us when the first week of July rolls around. There will be something for every one, from the relaxed throwing of horseshoes to the color and mayhem of professional wrestling, from trying a shot at midway games to witnessing some of the best baseball of the summer season. It should be a splendid week of sports and games. Just too good to miss.

MINOR BASEBALL

Drayton Valley will be strongly represented in the Provincial Minor Baseball Playdowns this summer as no less than four local teams will be competing for top honors. The levels of competition for these four teams are Pee Wee, P.O.N.Y., Cof and Juvenile. All teams have been duly registered with the Provincial Baseball Association and the first games of the province-wide tournament will likely be played during the second week of July. At this time it is still unknown as to where any of our teams will be playing or who will be furnishing the opposition. All semi-final or Divisional Playdowns will be one of these games series and the Provincial Finals shall be a three out of five affair.

The local teams, especially the younger ones, are possibly the best balanced and most powerful that have ever competed out of Drayton Valley and they can be expected to turn in a fine account themselves before the season runs out. The Pee Wee representation under the leadership of George Lecky and Coe, H. Westell should have what it takes to go along way in the Provincials. With players like Jerry Hurdal, Gary McMorris, Kenny Larson, Ray Lawtonick and Paul Joyce, just to mention a few, the D.V. Otters, as they will be known, could spell trouble for any and all opposition. The Hobos, the local P.O.N.Y., entry into Provincial competition are also a very redoubtable group. With Russell Brand and Rod Dieke at the helm, the Hobos will be a team to watch. David Joyce and some outstanding hitting power, the Hobos could wonder a long way from

home before September. The D.V. team backed up by boys like Lince, the Cof team, is generally considered the weak link of the tournament, however, under Bill Johnson and Al Sykes the boys have come long way in the past two weeks and could easily develop into the surprise package of the current ball season. In the year general interest seemed to be lacking at this age level. Lince, however, the team spirit seems to have reached new heights, thus with some new focus and a reliable crop of old regulars, the Otters are a team to be reckoned with during the next two months.

Bill Davies and "Red" Poler are in charge of activities in the juvenile camp and from all reports they have a genuine contender in the local team. The nucleus of the squad is composed of

(Cont. on page 8, Col. 2.)

TOWN CALENDAR

COMMUNITY LIBRARY HOURS - Tues. 12:00 - 1:00 p.m. and 3:30 to 5:00 p.m., 1:30 - 3:00 p.m. Fri. 12:00 - 1:00 p.m. and 3:30 - 5:00 p.m.

THE RIGHT FAITH

Can you prove your religious beliefs? It seems to do so is very essential, since it is our beliefs that largely determine our conduct and our attitude toward others. Paul at 1 Thess. 5:12 says, "Make sure of a thing, hold fast to that which is right." This means we must know and understand our beliefs and why we follow them. God has certain principles; love, justice, and righteousness, on these his law is based. Our religion should have a solid basis in the Bible. We must make sure our thoughts and actions are in accord with God's Word. Only by following Christian principles can we have a happy and harmonious relationship with others. Adopting a loving attitude may force us to change our whole life as Paul had to do when he turned from Judaism to Christianity. We will be willing to accept the truth and by doing so we will win God's favour.

CHURCH OF GOD NEWS

ANNUAL CONVOCAION OF THE CHURCH OF GOD.

The local congregation of the Church of God of which Rev. J.C. Wiuff is pastor, is cooperating with sister congregations throughout Canada in the furtherance of the forthcoming national Camp meeting to be held July 9th through 18th in Camrose, Alberta.

Dr. W.E. Reed, General Secretary of the Board of Church Extension and Home Missions, of Anderson, Indiana, has been selected as speaker for this occasion. Dr. Reed is also Secretary of the Department of Home Missions and Secretary of the Department of Evangelism. In addition to a number of excellent books he has written, his voice is frequently heard in the General Ministerial Assembly and on the executive Council of the Church of God.

The Campmeeting constantly stresses scholastically sound Bible preaching together with Christian nurture conferences for the uplifting of the spiritual life of the individual. Congregations across Canada are anticipating with increasing interest his coming annual convocation which has become an important link in the life of the Church of God, which has its general offices in Anderson, Indiana, U.S.A.

CANADIAN COACHWAYS

TO OUR PATRONS:
WHAT A "BRICK"!

You may well ask the above question. Constructed on a design suggested by Mr. M. Collins of Canadian Coachways and built for this firm, the "Brick" is unique to Northwestern Canada.

In simple fact the "Brick" is a conventional Western Flyer Motor coach which has been cut down the middle with the front end remaining a passenger coach and the rear end converted to a heated express van. This allows slightly over 400 cubic feet of "stand-up loading" express space able to accommodate much larger and heavier items than normally associated with Bus Express.

Operating on scheduled service to such points as Grande Prairie, Dawson Creek, Fort Nelson, High Prairie, Peace River, Fort Vermilion, Hay River and Fort-Wellsville, these coaches have truly become the work horses of the north. The largest single item so far accommodated has been a Cummins diesel engine weighing 2,200 pounds.

This same type bus has proved invaluable in moving small groups of prospectors, miners, drilling crews and other such groups with much baggage and equipment into remote areas.

A reminder to all that our summer schedules become effective June 15th, 1961 with each stop scheduled as daily schedules from Edmonton to Fairbanks, Alaska.

MONTHLY SUGGESTION:

If you do not already have our rate sheets and departure time cards please contact your local agent or write to us in Edmonton. We would be pleased to assist in whatever has transportation problem you might have.

Best Regards,
The Management
Canadian Coachways Limited.

O.O.R.P. News

The month of June proved to be quite eventful for the O.O.R.P. District Deputy Garvie installed our 1961 officers.

The new slate of officers are as follows:
H.R. Lady Martson
Loc. Lady Crampton
Loyal Lady Williams
Chaplain Lady Disney
Historian Lady Olsen
Secretary Lady Selva
Treasurer Lady Beattie
Conductress Lady Hazard
Planner Lady Jenkins.

District Deputy Garvie presented

Part H.R. Lady McInnes with a Past Presidents Badge. Lady L. Selva received a Jewel for three years service as Planner. Lady Harrison received Gifts in appreciation of their visit and assistance with the installation.

On behalf of the O.O.R.P., S.R. Thompson presented the O.O.R.P. Lodge with a very beautiful Silk Flag, in appreciation of the assistance given the Silk by the O.O.R.P. in the past years.

A pair of Remco Vans were presented to the Hospital by the O.O.R.P., also a cash donation was given to the Athletic Association for the Girls baseball club.

Do not forget about the Elm Barbecue on Saturday July 15th.

The O.O.R.P. Meetings have been discontinued for July and August, we will re-convene on Tuesday September 5th.

That's all for now
O.O.R.P., Newseditor:
Patricia Jenkins.

LOOKING AT RECREATION

(Cont. from page 6, Col. 8)

to Drayton Valley in general.

HERE AND THERE IN SPORTS:

The local Pea Wee intra-town league has had a busy season so far this summer. The little fall-own play on Monday, Wednesday and Friday, thus giving every one of the six teams a couple of games a week. Since the regular league games get underway about mid-May the weatherman has been most co-operative resulting in very few postponed or cancelled games and giving the youngsters a maximum of diamond activity. A trophy has been donated for the top team in the league and this will be decided by a tournament held here some time in August. The All-Star Pea Wee team has been picked from those six squads, however, the boys on the Provincial team will continue to compete regularly with their respective teams. It is strongly hoped the group interest will be maintained during the holiday season so uphold the regular league schedule until the time of the tournament and the crowning of the town's new diamond champ team for 1961.

Word was received from Bert Lowe, the perennial coach of the British Columbia Boxing Team that the popular and formidable Winnie Schell may soon become a Canadian Citizen which would make him eligible to participate in the Pan-Pacific Games to be held in Honolulu late in August. Schell is considered by many as the top flyweight prospect in the country today, missed the 1960 Olympics because of a controversial citizenship matter, however, it seems that Winnie will finally get the big break he has been waiting for and will compete for his country in the international event. No team could ever ask for a more competent member. A great fighter,

a fine sportsman and an experienced player both in and out of the ring.

Why it's called the FAMILY SECURITY PLAN

By: MR. STUART LUNAN

This plan is an excellent cornerstone for a young family man's life insurance program. It provides a low cost, a substantial amount of protection while the family's needs are greatest. In addition it enables a young man to get an early start on a savings fund to provide the income he will need when it is time to retire.

For more information just send me the coupon:

RCAP AIRSHOWS

RCAP ANNOUNCES AIRSHOWS FOR ALBERTA.

RCAP STATION NAMAO ALTA.

The RCAP has announced its programme of air displays for the Province of Alberta for the next three months. These displays will include the famous Golden Hawks, who have thrilled millions of people across the nation with their daring and skillful aerobatics, also the Red Knight, flying his flame-red T-38 Jet "Silverstar", will give solo performances of aerobatics on a return appearance to many towns in the province. Other shows will include a formation of "Silverstar" jets, and a Harvard team from Penhold.

Most of the airshows will be supported by static displays on the ground, these will include the RCAP's C-130 Hercules, C-119 Box-Car, and the Otter search and rescue aircraft.

11 June - Red Knight at Dunvegan (St. Charles Mission)

15 June - Red Knight at Valleyview (Simples River)

17 June - Red Knight at St. Albert (Consentel)

18 June - Red Knight at Grande Prairie (Northwest)

1 July - Six Harvards and static display at Wetaskiwin

8 July - Golden Hawks at RCAP Station Cold Lake

10 July - Golden Hawks at Calgary Stampede

12 July - Golden Hawks at Calgary Stampede

15 July - Golden Hawks at Drumheller

17 July - Golden Hawks at Edmonton Exhibition parade.

17 July - Golden Hawks at Edmonton Exhibition.

20 July - Red Knight at Edmonton Exhibition.

24 July - Red Knight at Lloydminster.

29 July - Three "Silverstar" jets at Vermilion

30 July - Six Harvards at Sylvan Lake regatta

4 Aug. - Six "Silverstars" at Ed-wood.

12 Aug. - Red Knight at Olds.

23 Aug. - Golden Hawks at Lethbridge

26 Aug. - Golden Hawks at RCAP Station Penhold.

27 Aug. - Golden Hawks at RCAP Station Namao.

LOOK WHAT'S EXTRA IN THE GMC PICKUP... BUT NOT IN THE PRICE TAG!

- 1 Sturdy, double-mounted hood is spring counter-balanced for easy operation.
- 2 Steel molding around door window glaze reduces chipping and breaking.
- 3 Double-wall cab construction has heavy reinforcements, insulated roof.
- 4 Soft foam cushion pads are standard, along with tough vinyl upholstery.
- 5 Sturdy dovetails keep GMC doors perfectly aligned, eliminate rattles.
- 6 GMC Pickups have the finest quality rest-springing, chip-resistant finish available.
- 7 Hardwood floors (optional, of course) with steel chip strips give longer body life.
- 8 Double-wall construction extends battery up side of pick-up box—gives twice the strength where it's needed most!
- 9 Extra-rigid straight tailgate stands up under weights that make others sag.

Almost anything you can name in this solid new GMC Pickup adds extra value—An engine that steps out ahead, even with full loads—and does it economically, dependably—without strain! A ride that's more stable, more comfortable, better engineered to protect you and your cargo. A frame that adds years of solid service to cab and body life.

Easier to own, easier to operate, easier to maintain ... GMC Pickups are easily today's best light truck value! Drive one today—at your GMC dealer's.

HUSKY 6-CYLINDER ENGINES—like the durable Turbomaster 6 shown here—are famous for squeezing extra pulling power out of every drop of gas!

The manufacturer of a mobile outdoor heating unit has hit upon a new idea for it. He calls it Jubilee on the Spot.

There is nothing wrong with the domestic heater and measured "I wish I had" a country in which a said that:

"How old does a man have to be before he loses interest in women?" asked one of the younger men. From the other end of the bench came a quizzical reply.

"Over 92 anyway, sonny."

This Indian was sending up smoke signals to his relatives in New Mexico when the atom bomb test went off. He watched the towering plume of smoke for a moment, clapped his hands and murmured "I wish I had a heater and measured 'I wish I had' a country in which a said that:

"How old does a man have to be before he loses interest in women?" asked one of the younger men. From the other end of the bench came a quizzical reply.

"Over 92 anyway, sonny."

WHERE IS THE WORLD'S MOST NORTHERLY PERMANENT SETTLEMENT?

Alert lies on the northern coast of Ellesmere Island, in Canada's Arctic archipelago. The radio and meteorological station at Alert was established in 1950 and is operated jointly by Canada's and the United States. Since its establishment the station has been the most northerly permanent human habitation in the world. Alert lies at almost 83 degrees north latitude.

Now we have the 24th anniversary party, who is convinced the work is not long and is operated jointly by Canada's and the United States.

SCHOOL CLOSES (Cont. from page 2, Col. 6)

an increase of at least 10 next September. The staff has included thirteen teachers and Principal T. McManis. Next year will see an increase in the teaching staff with the addition of Shop and Home Economics departments, and one more academic teacher.

Resignations in the high school have included Mr. and Mrs. Miller, Dr. Kupchenko who has taken a position as vice principal in the Tomahawk school, Harry Cymbaluk who will attend University, Allan Brown, also to attend University and Mrs. Gensing who is retiring from teaching. A total of nine additional new teachers will be needed. Principal McManis gave a glowing report on his student body this year, stating that they have worked harder and better than ever before.

Many of the upper-grade students have already secured summer jobs, and the eight who graduated this year have made their plans for the immediate future. A few come to work, others to attend University.

THE Editor's Viewpoint

Work is slated to start this summer on the sixty million plus dollar railroad running to the Territories, terminating at Pine Point where every large deposit of lead and zinc have been discovered and are now awaiting development. Long a rallying cry for the Peace River country, to the huge farming bloc north

of the railroad at Grimshaw, the farmers in that rich and fertile valley have been agitating for a railroad for many years. So far most of the farm produce has been trucked down the MacKenzie Highway to the railroad of the Northern Alberta Railroad at Grimshaw.

Considerable controversy had aged over the proposed routes for the railroad. Some favored the eastern route, a continuation of the line from the present terminus at Waterways and McManis, north to Pine Point; and of course the Peace River bloc group were quite vociferous as to the desirability of the western route, which goes through the Peace River valley, from Grimshaw north, more or less paralleling the MacKenzie Highway.

A Royal Commission, appointed by Prime Minister Diefenbaker looked over the situation quite thoroughly and came up with the decision for the western route.

From the standpoint of construction the eastern route had just as much to recommend it as the western but, with the farming land of the western route, there were more voices raised in favor of that route. Farming alone will be served in the western route, aside from the mineral which will be hauled out from the mines at Pine Point, and it could be hauled out equally well over either route. The western route, from McManis would have tapped vast scores of virgin timber, so any cutting of such other minerals as they are being in wait of development and timber hauling revenues are much larger than grain and livestock hauling revenues, providing the government is looking for a chance to get back at least a part of the some sixty million dollars the railroad will cost to construct.

BOX 111 DRAYTON VALLEY PROP. ROBERT DOMKE

Consolidated Mining and Smelter Company expect to ship about 255,000 tons of ore over the road to their smelter in Trail B.C. shortly.

The road can never be a paying proposition under any circumstances. There was the possibility of the eastern route costing less in subsidies than the western route; but either way, so well as the original cost of railway construction it will be necessary to subsidize the road from time of completion of the road to an undetermined period of time, projected on down into the future. The railroads opened up the west, but their days are numbered as cheap and efficient haulers of freight. Given good roads, roads on which some of these millions had been spent, truck-

ing of freight has become harder and every bit as economical as railroad hauling. Given good roads, properly constructed, with fine class base and adequate drainage, a class very low of our northern highways today, desired freight hauling can be very economical, and it has the advantage of expecting no subsidies to carry it along.

Anyway, the die is cast so far as the railroad is concerned. It is going through it in a Hollywood bar. "You remember that backen, frontless, sidless evening gown I wore to the snark preview last week?" asked the first. "Sure," said her friend, "it was a sensation!" "Well, I just found out it's only a ball."

Now perhaps a little work on 50 Avenue on both sides of 50th St. will be in order to remove some of the horrible chokos.

Two very young students were slipping drinks in a Hollywood bar. "You remember that backen, frontless, sidless evening gown I wore to the snark preview last week?" asked the first. "Sure," said her friend, "it was a sensation!" "Well, I just found out it's only a ball."

GAS TRUNK LINE

Drayton Valley has had an influx of pipeline workers in the last week or so. These are employed with Majestic Contractors Limited. They had been working out of Rocky Mountain House, but the distance from there to Lodgepole and Cypress finally became too great so they were moved to Drayton Valley. They expect to be here for a couple of three weeks.

Following is the account of the Gas Trunk Line, taken from Oil in Canada, June 22 issue:

Construction of the foothills gas transmission system of The Alberta Gas Trunk Line Company Limited has moved so fast that the entire job is more than half finished. Continuous dry weather for six weeks expedited pipelaying from the spring kick-off to the third week of June. It looks as if the whole system will be completed at least a month ahead of the September 30 scheduled deadline. All spread have been rolling along at an average rate of more than two miles a day.

Dutton-Williams Brothers Limited has finished its work on section four, 30-inch from Cypress to Whitecourt, and the lateral from Windfall to Whitecourt. It was the first spread to complete.

On section three, 30-inch from Rocky Mountain House to Cypress, Majestic Contractors Limited expected to finish out by the first week of July and finish laying pipe by July 15. At June 18 the spread had laid 35 miles of pipe and had 25 more to go. All but seven miles of pipe was strung during the winter, but the stringing was caught by mud bays and is being completed now. The 25-inch lateral from Rimbey to Rocky Mountain House, was completed on May 22 and kick off done on the 30-inch main line with the same spread was May 30.

Section two, from Pelly to Rocky Mountain House, is more than half laid. The Alberta Consolidated Pipeline Builders spread, under the management of Majestic Company Ltd. had laid 65 miles by June 18 and finished all but the last 38 miles, on the 113 mile 36" section.

Section one, from the British Columbia boundary to Pelly is nearly half laid. The Majestic Contractors spread had 65 miles in the ground by June 15, out of a total of 112 miles. This spread is over the hardest part of its ground and making good time in the upland area along the southeast front of the foothills.

One of a number of folks heard the band playing square last Friday evening. It really

A picture of women police in the Congo showed them beautifully dressed in white dress uniforms, each carrying a matching handbag. Presumably the handbag will act as a liability in time of trouble.

"Sure," said her friend, "it was a sensation!" "Well, I just found out it's only a ball."

sounded good, boys (and girls) A very appreciative crowd gathered on the street between 555 Variety and the Bakery to hear the band.

FISHING DELUXE IN B.C. WATERS. Three Drayton Valley fishermen took off by Beaver plane from Lake last Friday for a weekend of fishing in Lake Montezuma, about halfway between Vernon and Kelowna and Devenon.

The lucky three were Kevin Goshall, employed by Texaco in the Cypress area, Earl Thompson, well-known Drayton Val-

ley sportsman, and Jack Chmura, of Hailburton Company. The plane was a Halliburton craft, piloted by a Halliburton pilot. The group got away fine. Dolly Varden and had a quite wonderful time generally.

Adrian Meiers leaves this weekend for Nelson, B.C. to take in the Midwestern Bungalow in that B.C. city. The bungalow came on July 9 and will run a week.

Meiers is taking a risk of meeting with him, his companions, Hovis Jansen, R. and Mike

Miller. Also going along, but not taking part in the curling will be Dennis Meier. Dennis will go along to watch the maestro's in operation.

Last Thursday, Jack Shorter of Winnipeg who is President of the Canadian Ice Machine Co. called in at our fair news, and paid a visit to the Curling rink here as the machinery installed there is by the same Company. Mr. and Mrs. Shorter had attended the Canadian Hockey Convention at Jasper Park Lodge. While here they visited with the C.D. Park family, who are relatives.

ELKS STREET DANCE

Another "first" was registered in Drayton Valley when the Elks put on a very successful street dance on the evening of Dominion Day. Approximately 450, including those under 18, who were admitted free, were out on the street inside the fence that roped off the upper end of the street in the main section of town. A total sell-out on barbecued hamburgers, hot-dogs and spare ribs was registered.

The most important thing about it was that the weatherman was

most cooperative. For the rest, though much needed, held off until the very last moment, after the fireworks were shot off, after the piano had been picked up and taken back to the Elks Hall, after the crowd had all gone home home... then it rained.

Langford Park Orchestra supplied the music for the huge outdoor "ballroom", and registered some lively tunes. The event may become an annual affair with other service groups participating with the Elks to make it an all-day entertainment, such as many other towns stage on July 1st.

A week from this coming Friday, July 14th, the hand-working Elks are again staging one of their famous Barbecues. This will be held at the Elks Community Hall. Picture on page 12.

GOLFER WINS TROPHIES

Staff picture.

Dr. Henry Shimabashi, of the Drayton Valley Dental Clinic, bought the name of "Drayton Valley" into the limelight when he made a clean sweep of all the eyes in the annual Alberta J.C.C.A. Open Golf Tourna ment over the past weekend. In open play he came romping home with two huge trophies awarded for Low Gross and Low Net. In addition Dr. Shimabashi won two individual trophies and two other awards, a bar set and a shaving set.

The first 18 holes were played at Rivendell Golf Club course and the second 18 at Municipal with the Drayton Valley golfer going around the first course in 77 strokes and around the second with a 78.

Mr. Shimabashi just started playing golf a couple of years ago, and has shown an amazing aptitude for the game. He has taken a few pro lessons. He plays on the local course an average of about three times a week.

AUCTION MART IN D.V.

Drayton Valley is soon to have an authentic Auction Mart of her own. Bill Cam, formerly of Cur's Wire Line, will be starting the auction mart at the northern edge of town very soon. He will also carry new and used farm machinery sales, and feeds Name of the new addition to the businesses of the town will be Cam's Machine Sales and Feeds. The auction mart will be run in conjunction with the machine and feed sales. Word is being awaited by Mr. Cam on the final Department of Municipal Affairs branch okay for the site. The site has already been approved by both the Town of Drayton Valley and the L.R. 77, but the Highways Department are planning a new entrance on to the paved highway, just north of town, and it hasn't yet finalized plans for the entrance road.

When the highway is finished at that section, the street from Drayton Valley will cut into the highway at right angles instead of at the very dangerous angle at which it now enters the highway. The location for the feed and machinery sales and auction mart will be a very fine one, quite accessible after final arrangements are made regarding the access road from the highway into Drayton Valley. Mr. Cam is an experienced farmer and will know the needs of farmers, both in the machinery line and in the feed line. He will handle several different makes of new implements.

District Personalities

ALBERT A. BRADEN, Photo by Cur's Studio.

Residents of Drayton Valley and district are getting acquainted with the man in charge of the newly opened Treasury Branch bank.

Albert Braden was raised on a farm at Uley, Saskatchewan, east of Regina. He attended school at 831 carnes and took extension work with the University of Saskatchewan at Regina. He entered a chartered bank in the fall of 1950 as an employee. He served in permanent bank posts across Saskatchewan in various towns, and was also attached to the Bank's head office, in Regina, in the Credit Department, with 41 banks under his jurisdiction.

He had long been turning his eyes westward toward Alberta, as he and his wife had taken every possible occasion to visit "Sunny Alberta, the Province of Opportunity" - and in June, 1960,

he made the westward jump, coming to Lethbridge where he joined the Treasury Branch at an assistant manager for a period, to become acquainted with Treasury Branch routines. He remained in the Lethbridge branch until he received the appointment as manager of the new Drayton Valley branch.

Mr Braden married Miss Vera Saunders, of Swift Current, Sask., in 1957. Miss Saunders was teaching school at a point near Swift Current at the time. They have one boy, Douglas James, aged one year.

Mr Braden finds Drayton Valley a very exciting town; a place of unlimited challenge. The oil industry, he believes, is very interesting. The Bradens say they have never received as warm a welcome anywhere as was acc-
